

# ATTENTION VAPERS!

The bill to **ban all flavoured vapes** and **disposable vapes** has support from every major party in Ireland!

This will push vapers back to smoking and have a disastrous effect on public health.

Here are a few questions to ask politicians out canvassing:

1

What are you going to do to save flavours?

Facts

One in five

former smokers say they will **go back to cigarettes if Ireland bans flavours!**

Nicotine gum doesn't come in tobacco flavour, so why should vapes?

2

Will you push for vapes to be recognised as an official quit tool?

Facts

**25% of smokers who quit used a vape.**

19% of smokers who quit last year used patches, gums, lozenges, or sprays.

In the UK smokers are given free vape starter packs

3

What are you doing to stop underage vape sales?

Facts

Only 14% of adults agree that the ban on the sale of vapes for under 18s is being properly enforced.

**A crackdown on dodgy shops is needed to prevent youth access**

4

How will you ensure vapes remain affordable?

Facts

Vapes have to remain affordable for smokers to switch! Taxes will only create a black market for unsafe, illegal vapes in Ireland!
